KAESER KOMPRESSOREN®

Project Engineer – Technical Sales (m/f/x), full-time

KAESER Compressors is one of the world's leading manufacturers of compressed air products and services. KAESER Austria, as the center of excellence within KAESER Group, is specialized in providing customized solutions for EPC projects, especially for the energy sector. We are seeking for one more member for the technical sales team.

Your Responsibilities

- Analyze the inquiries and technical specifications from international clients, especially in the energy industry
- Clarify the requirements and evaluate the feasibility
- Develop the technical design and proposal
- Support the team during realization of projects

Your Profile

- Higher educational background in the areas of mechanical or electrical engineering
- Former working experience in the field of mechanical engineering, technical sales, or EPC projects as advantages
- Excellent written and verbal communication skills in English (C2). German language level B2 or above

We offer

An employment contract without any limitations of duration and great career opportunities and individual development plans. You will be working in a successful company with professional, motivated and family-like team. We offer an international work environment with English as the working language. To comply with legal requirements, we announce the minimum salary according to the Collective Agreement for the trade-employees (E1). Your salary will be agreed upon your qualification and experience. Additionally, we offer a lot of benefits:
